Visual Solutions | Work-Flow Control | Short-Interval Scheduling
www.t-cardsystems.com

BETTER WAY inc.

The BETTER WAY System

The BETTER WAY System is a proven method for visual control of:

- **People, functions, equipment**
- **Orders, processes**
- **Products, services**

The superiority of the Better Way System over other visual control methods results from the use of T-shaped cards that provide space for record keeping in the body of the card with the top portion, containing identifying information, always visible.

SYSTEM EFFECT

Smoother, more responsible supervision and operations control.

SYSTEM BENEFIT

Improved service for your customers and increased earnings for you.

In today's competitive marketplace, the BETTER WAY System is the visual control solution that quickly pays for itself many times over.

A COMPLETE ORGANIZATION SOLUTION

Since 1966 thousands of Better Way T-card Rack Systems have been used in transportation, industrial, commercial and institutional applications.

Regardless of industry, the T-card System incorporates all the features you need for effective, economical and practical short-interval scheduling. It is a simple, flexible and reasonably priced system designed to fit in readily with your present operation.

Designed to Meet Your Needs

Consider first the cards. Racks can be assembled to accommodate more than one size of T-card.

No. 3 T-card (3⁵/₈" x 4³/₄") **OUR MOST POPULAR SIZE!!**

This T-card has room for information in the body of the card and can be customized easily.

Many stock forms are ready for immediate shipment.

Available blank, printed on one or both sides, and in half, full or extended length. Consider using 2- or 3-ply NCR paper, plastic, or numbered T-Cards.

Requires a #3 size rack.

No. 4 T-card (4⁷/₈" x 7¹/₈")

This T-card can be used when even more information is needed.

May be blank or printed on one or both sides.

Also available in 2- or 3-ply NCR paper, plastic, custom-printed, and numbered. Ask for quotes.

Requires a #4 size rack.

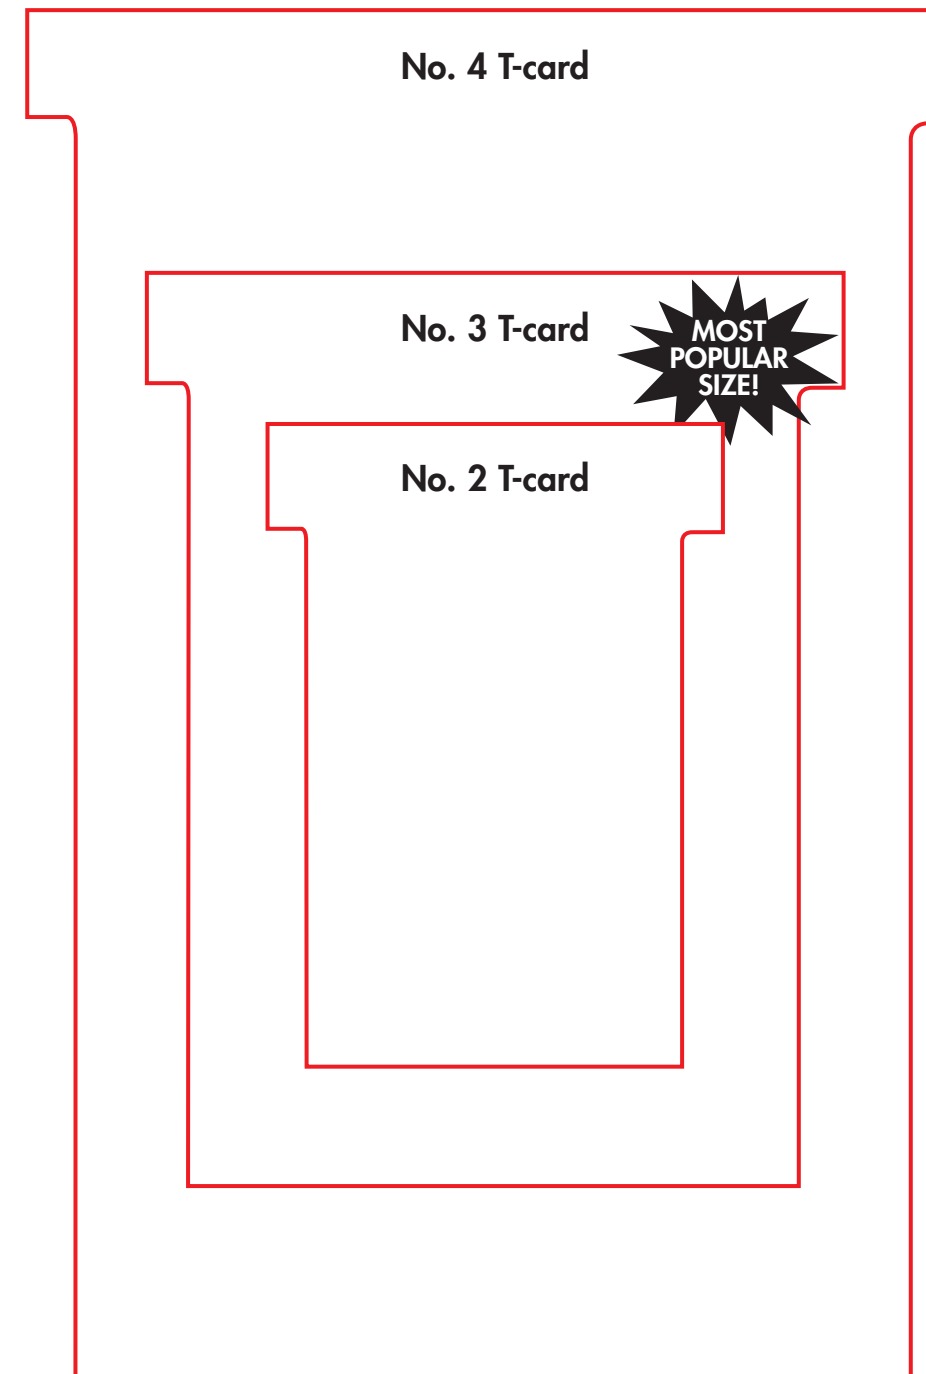

No. 2 T-card (2³/₈" x 3³/₈")

Use this T-card if you only need a number, name, or short identification to show when the card is in the rack. Other information may appear on the body of the card.

Available blank, printed on one side, or printed on two sides.

Requires a #2 size rack.

All cards shown actual size.

Superior Visual Control

Make the Better Way System your official record or make it serve a supplemental purpose. Either way, gain the benefit of improved productivity only visual control can provide.

Start with a basic system and expand anytime. Reasonable prices make this the most cost-effective system on the market.

Color Coded Cards

All sizes are available in twelve stock colors: white, tan, yellow, salmon, blue, green, pink, gold, grey, lavender, orange and red. Other colors are subject to availability.

Pre-Printed Cards

We print to any specifications on card sizes 2, 3, and 4 and will work with you on design and layout to meet your needs.

Computerized??

Print your T-cards using your own printer and software along with our specially designed T-cards. We supply blank #3 and #4 fan-folded cards for dot matrix printers and individually fed sheets for laser/inkjet style printers.

- T-cards are white with other colors subject to availability.
- Call us @ 800-445-7365 for specs and samples
- Just another innovation from Better Way!
